The Farmer's Success Depends **Upon Freedom from Disease** and Suffering.

PAINE'S CELERY COMPOUND

IY IS THE MEDICINE THAT HAS MADE THOUSANDS OF COUNTRY

TOILERS WELL AND STRONG.

There are thousands of farmers in our and who are rich in broad acres and gold, set lack that true wealth known as good health.

It is a melancholy fact that men and women in the country districts, breathing the purest air and drinking from God's bubbling fountains and limpid springs, are lable to the same diseases and aliments that come thick and fast to city people. We find theumatism, neuralgia, debility, dyspepsia, tidney and liver troubles, and blood disases almost as common in the farmer's family as they are in city homes.

COTTON-SEED CROP SHORT. Lively Competition Between the

Mills of Mississippi. EPUBLIC SPECIAL

Jackson, Miss., Sept. 19.-The outlook is omising for a spirited war between the otton-seed oil mills of Mississippi, and hosilities are likely to break out in earnest at

ny moment.

The cotton crop is unquestionably short, nd as a consequence the yield of seed will a much smaller than heretofore. This fact, oupled with the influx of many new mills luring the past year, has created a lively competition for seed, and the price is stendly advancing. In some parts of the State thas reached the \$20 mark, and mill manigers express the fear that \$22 per ton will be offered before the season closes.

The present prices render it well-nigh mpossible for the mills to operate at a rofit unless there is a corresponding adance in the price of refined products, which it present does not seem likely. Many of he mills secured advance contracts for seed at prices ranging from \$15 to \$11 per con, and these seed are now being conumed. When the storage-houses are mptied of contract seed the competition will commence in earnest.

ABOUT EYES.

Glasses are not Always Necessary.

Parents are often advised to get glasses of for their children by the school authorities who attribute the weak, watery condition to the eyes of the child to some defect in the vision, and do not realize that the trouble may arise from the common practice of coffee drinking.

A case in point, Mrs. C. E. Knapp of Elyria, O., says, "six months ago we were a family of invalide; my husband, myself and two children were all arfilezed with stomach troubie. I would get so faint before it was time for regular meals, and after eating had pain and distress in the stomach, which feit as though there was a hard lump in there. If felt drowsy and studd most of the time. If I was out in the wind my eyes would water so it hindered me from seeing.

"My son was the worse afflicted. His eyes blurred so they hindered his progress in school and we thought it would be necessary to have them treated. His teacher finally had him bring his reader home with word that I have him read as hour each lay out of school. He could not read a paragraph without stopping to which have thought that was the cause of our trouble until I read an article on the subject in the Cleveland paper.

hought that was the cause of our trouble until I read an article on the subject in the Cleveland paper.

"We were discussing it at table one day and my daughter said, I know it is coffee that hurts me, for when I do not drink it I do not have that lump in my stomach." My boy said, 'A lump is nothing, every time I frink coffee my fingers prickle just as though they were asseep. I was both scared and astonished at such information, and told them I had made the last cup of coffee ever would for home use. I got a package of Postum Food Coffee and tried it for our next meal, and we soon learned to the it and think it better than coffee.

"We have none of us been troubled with our stomach since we commenced to use it. Our eyes do not water any more when in the wind, our cheeks and lips are red, instead of blue or purple, when we are out in the cold; the drowsy feeling has left and the prickly feeling has entirely left my san, we use it twice a day and give it freely to my 20 months' old babe. We find it better und cheaper than coffee. We cannot speak too highly of its merits, for we know we we the change in our health to Postum Jereal Food Coffee."

LIGHT BATTERY A BEING RECRUITED AS CRACK MILITARY ORGANIZATION.

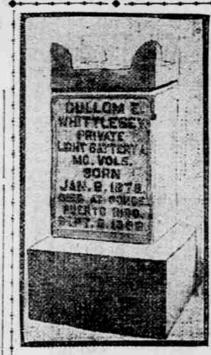

Troop of Cavalry Will Be Added and Membership Increased to Full Strength.

Light Battery A, through the efforts of its Captain, Frank M. Rumbold, will soon resume its position as one of the crack millitary organizations of the United States. Arrangements are now being made whereby the battery will be recruited to its full strength on a war footing and thoroughly equipped.

Since the battery's return from Porto Rico, where it covered itself with glory in the Spanish-American campaign and was prevented from participating in actual hostilities against the enemy only by a hair's breadth before the declaration of peace, the interest of its members has fallen off until at present it musters only thirty-three ac tive members. Through the energy of Captain Rumbold, aided by wealthy friends of the organization, recruiting is to be begun next Tuesday evening at the battery quarters, on Grand avenue and Caroline street. On a peace footing the full strength of the battery is 165 men and on a war footing 165. Captuin Humbold has had conferences lately with Governor Dockery, Adjutant Gen-eral Clark and Mayor Wells, the result of which is that the Captain is authorized to recruit the battery to its full strength. One of the most important features of the reorganization is the recruiting of a troop

of cavalry, consisting of sixty-five men, fully mounted and equipped with Krag-Jorgensen carbines, to be under the command of Captain Rumbold. The cavalry will, of drills will be continued and increased in course, be entirely distinct from the bat- frequency, so that the battery's efficiency tery, but will use the same quarters for parade and drill. The troop will do escort duty in connection with the battery or separately during the World's Fair and on all state occasions prior and subsequent to that

Running for Legislature.

Topeka, Kas., Sept. 19.-Frank Rockefeler, who has been nominated for the Legislature by the Democrats and Populists of Russell County, is a cattle man and a cousin of the Standard Oil Rockefeller. The county is nominally Republican by a majority of about 300, but this year the opposition expects to get the Russian Lutherans who live in the county. It is said that the Republicans have falled to recognize the Russians in making up their tickets in the past, and that this year the Democrats and Populists have given them seven places on their tickets. This was done by the efforts of Rockefeller, and he expects the entire Russian vote of the county in return for it. His Republican opponent is J. H. Hill, who was in the Legislature of 1964, and was elected by a majority of 254.

Some are registered bonds and payable to a single individual of the public proposition of bonds, some are registered bonds and payable to a single individual of the public propositions and payable to a single individual of the publi

authorized by the State, counties or municipalities.

The national Government itself issues various forms of bonds. Some are registered bonds and some are coupon bends, but whatever the phraseology of the bond, it is none the less a bond of the Government of the United States. Indeed, the language of the promise to pay by the State is a nonescential element in so far as the obligation of the State may be destroyed, and the State is still liable for the amount of the debt, occause, after all, the bond or certificate is only an evidence of the debt. The destruction of the evidence of the debt could not destroy the debt itself.

riance with the facts. Even it the Legislature thought at the time this amendment was submitted it was necessary to "validate" the unchallenged action of all the Legislatures during the last three decades, it would now be unnecessary, because the Reguldican party has nominated Judges Whybark and Higbee, who declare that the school certificates are constitutional. The attitude of Messas. Whybark and Higbee is not the occasion of surprise, inasmuch as these gentlemen could not in honor hold otherwise, because, while members of the Legislature, they voted for the issue of school certificates.

The School Fund amendment is submitted solely because of the fact that, with the extinguishment of the less than half million of dollars of outstanding bonds at the beginning of the comming year. The Constitution will then require the State to pay the school certificates. The school certificates, as heretofore stated, are part of the public bunded debt, and the Constitution says that "there shall be levied and collected an annual tax sufficient to pay the accruing interest upon the bonded debt of the State and to reduce the principal thereof each year by a sum of not less than 150,000," etc.

Nearly 150,000 of school certificates mature the coming year. The State must either pay or renew them. There is no escape, under the present Constitution, unless amended by the pendiature has, therefore, wisely submitted to the present Constitution, unless amended by the pendiature has, therefore, wisely submitted to the people an amendment providing for the investment of school omoreys which may hereafter come into the Treasury "in registered county, municipal or school district bonds of this State of not less than par value." The amendment also provides for the reduction of the State interest tax from "io cents on the hundred dollars valuation." A 3-cent levy will not be necessary, as a levy of 25, cents on the hundred dollar valuation." A 3-cent levy will not be necessary, as a levy of 25, cents on the hundred dollar valuation." A 3-

chi assessment, to meet the annual interest on the school certificates.

NOT A PERPETUAL DERT.

It is not true, as alleged by reckless Republican partisan newspapers and speakers, that this amendment will create a "perpetual debt." I most earnessly favor the adoption of the School Fund amendment, but if by any reasonable construction it could be held to authorize a "perpetual debt." I should copees it. This debt sacred though it is, should be renewed in such form that the people may have the opportunity to pay it at any time they so desire. The amendment, to quote its exact language, simply provides that the Legislature "may renew the certificates o' indebtedness as they mature, for such period of time and at such rates of interest as may be provided for by law."

It follows, therefore, that the School Fund amendment does not create a "berpetual debt." and it is not submitted to "validate" any alleged unconstitutional action involved in the lesses of school certificates. It does, however, continue in the discretion of the people and of the Legislature own securifies, thus operating to reduce at once State taxation from E cents on the filly valuation. The consideration of this question should be freed from partisacable. The elecational interests of the State are too lofty and too sacred to be involved in the merhes of mere partisan controversy. I have full faith that the people, without regard to party affiliations, will continue the existing system of investing our school moneys unfor which the educational interest of Missouri have kept pace with the wonderful development of all our productive industries.

For thirty years our splendid educational system has grown, expanded and developed mightly. We now stand upon the threshod of the Twentieth contains of all our productive industries.

Missouri will take no backward step. NOT A PERPETUAL DEBT.

Will Test Peddling Ordinance. Will Test Peddling Ordinance.

The point was raised in the Dayton Street Police Court yesterday, in the case of George Hecht, that farmers are not required to have a city license to sell their produce, the same as peddlers. Hecht is a St. Louis County farmer, and was charged with selling vegetables without a license. His attorney maintained that a State statute gives farmers the right to sell without a city license.

Judge Tracy ruled in favor of the city ordinance requiring any one engaged in peddling to have a license. He fined Hecht 25. Notice of appeal was given.

MURDERER DEFIED HANGMAN.

Sheriff Uses Hose to Subdue Desperate Prisoner. New York, Sept. 19.-Peter Hernia was hanged in the County Jail at Hackensack,

N. J., to-day for the murder of Barney . Kanter, a butcher, but before his execu-tion was accomplished Hernia made a desperate fight.

When two Deputy Sheriffs approached him to strap his arms he suddenly tore off two brass brackets on the side of his cell and, getting into the comer leaped over a partition.

cell and, getting into the comer leaped over a partition.

He then tore off a piece of lead pipe, and crouching in a corner, shouted that he would brain anyone that came near him. The Sheriff and his deputies turned the hose on him and overpowered him.

The condemned during the night asked frequently for whisky. When whisky was refused he smashed a chair in his cell and two priests who were with him had great difficulty in calming him.

Hernia shot Kanter on March 4 last because the latter would not sell him 5 cents worth of dog's meat.

SHOT HUNTERS, TOOK POISON. Girl Wounded by Angry Farmer

Likely to Die. Brandon, Man., Sept. 19.-Thomas Law of the milling firm of Alexander & Law Brothers, and Miss Sherwin, a social favorite, shot two prairie chickens on the farm of L. Rowe, twelve miles from the city.

This so enranged Rowe that he fired twice at the hunters, shooting Miss Sherwin in the stomach and Law in the knee.

Rowe ran home and swallowed the contents of a bottle of poison, dying in a few minutes. Miss Sherwin is not likely to
